

## SCHORR'S LOVE LETTERS.

MRS. SMITH SAYS THEY ARE TRUE AS PUBLISHED.

Denounces the Doctor for Giving Them Publicity, and Says the Reverend German Meas Have Been Crazy—She Denies the Statement that She Was Engaged to Him.

BALTIMORE, May 29.—With regard to the love letters of the late Rev. Henry Greenfield Schorr, assistant rector of St. Paul's, P. E. church, published in the New York World, Mrs. Margaret M. Smith, the object of the suicide's affections, was interviewed at her residence. The lady said: "I think Mr. Schorr's act in sending the letters to the World was that of a cowardly man. He did it out of revenge because I would not marry him."

"Were the letters as published true?" asked the reporter.

"Yes, they were," she replied. "I really did care for him, but told him I could not marry him. He was a woman much older than Mr. Schorr—in fact, he was a boy to me. I think he was crazy in sending my letters to the world."

Mrs. Smith denies the last paragraph in Schorr's letter to the World, which was in effect that they were engaged, and that she had also been engaged to the Rev. Mr. Pond of Philadelphia. Mrs. Smith is a rich widow of 40 years; Mr. Schorr was 25 years old.

The remains of the young minister were buried in the Baltimore cemetery on Tuesday. Rev. Dr. Hodges, rector of St. Paul's, officiated at the funeral and Bishop Purat at the grave.

### -DEFYING THE EAGLE.

Canadian Whalers Getting Ready to invade Behring Sea.

OTTAWA, Ont., May 29.—The government here has been advised that a large number of Canadian sealers which for some time past have been fitting out at Victoria, B. C., will leave in a few days for Behring sea. A number of Nova Scotia sealers, encouraged by the success of the Pacific coast vessels last season in avoiding capture by United States revenue cutters are bringing their vessels around Cape Horn with a view to capturing seal skins within the limit of the preserve claimed by the Americans.

A prominent government official in speaking to a reporter said that there was little doubt that Canadian sealers would make efforts to hunt in Behring sea despite the president's proclamation and the presence of American war vessels. The British man-of-war he said would not make any move toward preventing the departure of these vessels, as by so doing they would in a measure be countenancing the claims of the Americans to exclusive sovereignty in the disputed waters. On the other hand if any Canadian sealers are taken by American war ships the British vessels would not try to rescue, as that would be the signal for open hostilities. The presence of the British war vessels will probably be seen to that no outrages are committed and to show that Great Britain is not given to the contention of the United States.

### VIOLENT GALES.

Much Damage Done to Vessels in Canadian Waters.

KRASNOV, Ont., May 29.—A violent south-westerly gale set in about midnight and is still blowing, but has moderated somewhat and veered to the westward. The steamer Tecumseh left Collins bay with the barges Cameron, Worts and Cavalier for the Welland canal. They had discharged at Collins bay and were going back to Lake Superior for more. The trip was uneventful until 3 o'clock, when a stiff gale began to drive them. The velocity kept getting greater. The captain of the Tecumseh came to the conclusion, when he got opposite Oak Orchard that to proceed would be perilous. He righted his boat and let two of them go and one he kept under him. The boats reached here this afternoon. The captain reported that when he reached the main docks he saw the steamer D. D. Calvin and two barge laden with timber. They seemed to be in trouble. The barges were away from the steamer and no sailors seemed to be in charge. The larger seemed damaged and an empty vessel was on one of them. The schooner Neelon, from Toledo, put in here to day. She had lost some canvas and was leaking badly. The Norway, one of the Calvin's tow, reached Garden Island last night under sail. She reports her consorts weathering the gale well.

### Bug Finish.

Ready for use. No mixing required.

Sticks to the vines and finishes the whole top of potato bugs with one application.

The pound will go as far as ten pounds of Paris green and plaster mixed by hand.

\$1.00 per lb.

We do engraving of all kinds. Goods purchased from us will be engraved free of charge.

NEFF & CO. CHEMISTS.

A party of ladies, members of the W. T. C. of this village, were among the first callers on the Daily Herald. It wasn't altogether a friendly call either. In reporting their proceedings the Herald was misled into saying that the prosecution against Mr. Clark H. Benford, for selling liquor, was under the auspices of the W. C. T. U. This three good ladies denied and said that while openly and avowedly anxious to further the cause of temperance they were not acting the part of public prosecutors. The correction is made in justice to the W. C. T. U. and our callers are assured that there was no desire to place them or their order in a false position.
